The Premiere

Behind the Scenes

We're documenting the Behind the Scenes of Luna's Ring process to show the community the scope of our production.

We'll release a "Luna's Ring: Behind the Scenes" documentary at the premiere.

The Premiere

Luna's Ring will premiere at Regal Cinemas in Cayman in Summer 2018.

It will then be released to the local and international festival markets.

Why Support?

A man with a mustache, wearing a wide-brimmed straw hat and a light-colored, sleeveless vest over a shirt, stands in a lush green field. He is leaning on a wooden fence. In the background, there are rolling green hills and mountains under a clear blue sky. The scene is bright and sunny.

Feel the thrill of bringing a beautiful story to life.

Be on set in Cuba during the shoot in January 2018!

Give young artists the opportunity and experience of a life-time.

Share in the team's joys and sorrows of producing a film.

Attend the Luna's Ring premiere as part of the team in Summer 2018!

Possible invitations to international film festivals.
